The minister had with him when he Mirabel in the neck, inflicting an e to the state department, a copy of a long cablegram from the viceroy of wangtung, and Kwang, bearing on that Dr. Machie and Miss Patterson. two of the missionaries who escaped Hill and the prisoner was safely lodg-massacre by reason of their tempo- ed in the county fail. rary absence from Lienchow, had just reached Canton under a strong Chinese guard.

ording to Dr. Machie, the anti-American boycott had nothing to do with the tragedy. The trouble arose from the holding of a Chinese festivat and fair. As an incident to this fair the Chinese erected a pavilion or booth, which the missionaries chilmed overlapped the missionary hospital compound several feet. The missionaries expected the removal of that part of the building, but before this request could be complied with. of the missionaries went into the mis-sion grounds and seized several small cannon with which salutes were being fired as a part of the festival.

These cannon were held to be sacred instruments by Chinese. thie They were finely chased with symbolic designs and gorgeously ornamented for this particular occasion. The Chinese believed that each discharge blew away or discharged certain malignant spirits hovering about the place. Consequently, according to the report, consternation and then anger and the Ill-feeling culminated in the attack Ne the missionaries and their

New Alpine Tunnel.

Geneva, Nov. 22.—The convention or the construction of a tunnel through the Jura mountains at the Cal de la Faucille, in Switzerland, has beet signed by the representatives of the Lyons and Mediterranean railway company and the French minister of public works.

This is part of a railway scheme for reducing the journey between Paris and Geneva and securing the advantages for France of the new Simplon Railway tunnel. Passengers from England to Italy will be enabled to avoid the Lucerne and St. Gothard

The tunnel at Faucille will be 914 miles long, and the cost has been esti-mated at about \$25,600,000.

Hage Wealth in Black Hills.

Slowx Falls, S. D., Nov. 22.-Statisties of the total gold production of the Black Hills since that region was sur-rendered by the Sloux Indians and occupled by the whites, contained in the Black Hills to December 1, 1964, produced gold to the value of \$112,163-750. By adding to this the amount which has been produced so far this year, approximately \$8,000,000, is given a total production of \$120,163.

Those in a position to know declare that this is far less than the actual amount, taking into consideration that much of the gold has been used in the arts, of which no account has been kept, while a large amount also has been taken from the Black Hills and acredited to other mining districts. Were it possible to get the exact figures it is regarded as certain that it would be shown that the total gold production of the Black Hills to date

LaFollette's Purpose a Mystery. Madison, Nov. 22.-Politicians geerally agree that Governor La Follette's ultimate purpose relative to the United States senatorship is not ciari-fied by his call for a special session of legislature December 4th. hold that the main purpose of the call is to remedy the law relative to the rebuilding of the capital, as this work at a standstill if the law is not perfected.

would reach fully \$140,000,000,

GOVERNOR GRANTS PARDON TO TAOS COUNTY CONVICT

Mendo Rodriguez Who Contracted Incurable Disease Released.

Governor Otero yesterday granted : pardon to Mendo Rodriguez, a convict from Taos county, under sentence of ten years' imprisonment for murder in the third Jegree and who has served nine years of his sentence.

The pardon was granted upon a cetificate of the physician of the territorial penitentiary that Redriguez har contracted an incurable disease and could five but a short time longer. He has been unable to work for the past two years, having been all this time in the hospital and, therefore, only an expense to the territory. In addition during his confinement, he had conducted himself, prior to his lines, in an exemplary manner and has a good record as a docile and obedient pris-

Claims He Was Shanghaied. tryer, Ohio, Nov. 22.—Afleging that he was drugged, klunapped and impressed into service on an English ship, the Providence sailing out of Tacoma. Wash., in 1962, Foster Anmock, of this place, has begun suit for \$60,000 damages against the vessel owners, Thomas Cole and company, of Liverpool, England. Former Representative Smith, of Michigan, has called the attention of President Roose velt to the case.

During the summer of 1802 Anmeck worked in the harvest fields of North Dakota and went on to Tacoma to see the country. On the evening Anmora alleges he was shanghaied he and his friend dined at a seamen's hotel. That is the last that he remembers until he awoke at sea on board the Providence, which was then out of sight of land Anmock was compelled to work with the satiors. The third lay out from Tacoma the ship ran into a flerer storm, and Anmock was ordered sloft to clew the sails, when he was jerke from the rigging and thrown to the

>
> General Chaffee makes these remarks in speaking of the canteen. Incidentally, he says the figures show that the lowest ratio of alcoholism was in 1898, when beer and light wines were sold at the post exchanges.

What The Earth Produces.

The earth has nourished us through unknown ages of human existence. Is it not true that the earth supplies us with everything that we really require for existence Have you ever thought that it is probable that the earth supplies us with the means to keep our bodily vigor, our health, if we only knew it? The animals know by instinct what is good for them and will search until they find in some plant what they need for correcting indigestion or constipation atc. Is it therefore not possible that tion, etc. Is it, therefore, not possible that there are roots and herbs supplied by nature which will cure the diseases that afflict human kind? That is why Dr. Pierce, of Buffalo, N. V., has such faith in his "Medical Discovery." Vests ago, when he was in general and active practice, he found that a combination of certain herbs and roots made into an alterative extract, without the use of alcohol, would always put the stomach into a healthy condition, nour-ish the tissues, feed the blood and nerves and put healthy tone into the whole
